

IDENTIFICATION: The Alabama Beach Mouse (*Peromyscus polionotus ammobates*) and the Perdido Key Beach Mouse (*Peromyscus polionotus trissylepsis*) are about three inches long, and pale gray with a white abdomen.

FORESTRY CONSIDERATIONS: These mice are found on beach dunes and in pine areas adjacent to the dunes. Forestry practices in these areas could impact the beach mice.

DISTRIBUTION BY COUNTY: The mice are found only in Baldwin County on coastal dunes from Mobile Bay to Perdido Bay and on the west end of Perdido Key.
