Mailing Address (2):		Latitude:	
City, State Zip:		Longitude:	
Telephone (Day or Cell) #:		*STR (opt.)	

(Please Circle)

Do you own more than 5,000 acres of forestland in Alabama ?

**YES / NO**

Is the stand owned by a federal or local government, a wood-using industry or entity that derives more than 50% of its gross income from a wood-using industry, a corporation with publicly-traded stock or a public utility company?

**YES / NO**

Is the stand enrolled in any cost-share program (including CRP)?

**YES / NO**

*Note: If "YES" is answered for any of the three questions, then the landowner is not qualified to participate in the SPB Prevention Cost-share Program*

**For the practice(s) that you are applying for, list the number of acres:** (acres, 10 to 100 per practice)

Site Preparation (mechanical, chemical and/or prescribed burn treatment):

Longleaf Pine Planting (suitable site):

If approved, the SPB prevention practice(s) must be completed, verified, and reimbursement request submitted by Thursday, April 1, 2021. The site must be suitable for planting longleaf pines as determined by the Alabama Forestry Commission (AFC) county personnel. If a clearcut is needed, then it must be completed by May 1st prior to the upcoming planting season or the application will not be approved. The landowner can select either one, two or all three site preparation practices. One cost-share amount per acre is available for site preparation. The AFC county personnel will determine if site preparation is needed and if the practice(s) was implemented for longleaf pine planting.
